<b>How long have you lived in Palm Beach County?</b>	66 Years

## **JOBS**

Two of the community organizations that I am involved with, which I am most proud, of are the Peach Umbrella Network and the Blackmers market. Both organizations promote local small businesses by investing, combining resources, and engaging in the community to ensure they are successful. By promoting local small businesses and amplifying their reach, we can continue to grow our local economy and spur further job growth.

## **TALENT**

I believe we can help promote local businesses needing additional help by hosting job fairs and potentially allowing for a public posting on the city's website and social media that displays current local job openings – matching qualified residents with local businesses.

## **BUSINESS CLIMATE**

We must ensure that Delray Beach remains a business friendly city. To attract entrepreneurs and investment in our city, our city needs to work collaboratively with the business community and local businesses. These businesses drive our city's economy, creates jobs, and generates tax dollars for the city which are used for vital city services like public safety, wastewater treatment, parks and recreation, and code enforcement.

## **AFFORDABLE HOUSING**

There are still families across Delray Beach dealing with the high cost of housing and many are struggling to afford to live here. We should try to cut taxes as a city to help lower costs. Working together with local stakeholders, residents, and community leaders, we can ensure that working families, young professionals, and seniors are able to live and thrive in this city.

## **TAXES**

As the next City Commissioner, I believe we should always be looking at ways to cut taxes while responsibly managing the budget, ensuring our public safety departments are always fully funded, and our city continues to offer world class services.

## **COLLABORATION**

My work with my sorority, the Blackmers Market, and the Peach Umbrella Network are just a few examples of how I have worked in collaboration with the community to uplift local businesses and promote our local economy.

## **WOMEN IN THE WORKFORCE**

As City Commissioner, I will always work to ensure our city staff and employees are working in a safe workplace, and that our hiring practices are equitable.

## **WORKPLACE CULTURE**

As a woman running for office, I know how hard it can be to work past some of these obstacles. And as commissioner, I will ensure we promote equitable workplace parity regardless of sex.

## **OUR COMMUNITY**

Sadly, Delray has been split into factions for the last few years. Longtime friends have found themselves separated by the divisions encouraged by the current leadership. I know we can and must do better.

I want to lead Delray back to the collaborative and creative community which made our City a beacon for what cities can accomplish on behalf of their citizens.

With over 30 years of leadership in the nation's 4th largest school district, I know how to bridge divides and move forward together. I will bring that experience to bear on the Commission and make all citizens feel they have a stake in the process.
