### **JOBS**

I believe to create jobs we need to offer more job training programs to single mothers. Have local and state grants in place to educate the low income. If we have different programs to offer the uneducated it would motivate the disadvantage to want to more more. Lack of money with no incentives is what is hurting our county.

### **TALENT**

I would promote Job fairs. Have employers offer a hiring bonus. possible ride vouchers to and from the job place.

### **BUSINESS CLIMATE**

Aesthetics goes a long way. Cleaning up the business inside and outside. If a place is worn down no one wants to go to be apart of it.

### **AFFORDABLE HOUSING**

Housing is a major concern of mine. The County needs to offer more assistance to the needy. Caps on price increase.

### **TAXES**

N/A for my position

### **COLLABORATION**

I am a member of the Lantana Chamber of Commerce. I volunteer to do varies things that help the town. Green markets, fundraising events, beach clean ups. etc.

### **WOMEN IN THE WORKFORCE**

All women should be paid and treated the same as man. Laws that allow a woman to sue for sexual harassment in the work place. Stop discrimination of gender and color.

### **WORKPLACE CULTURE**

I believe in equality for all. Create a diversity and inclusion training program. ...  
Hold managers accountable. ...

### **OUR COMMUNITY**

I believe things have started to take a small change in the right direction. With new laws in place and employers taking new steps to create an diversity.

### **Is there anything else you would like to add?**

As a nation we need to strive to do better. Our role in helping others achieve stability and equality is a must.
