TALENT

I'm willing to get the information out to potential qualified workers and also provide training guidance to help fill the gap. Also help probed and create solutions to any issues causing the "more job than seekers".

BUSINESS CLIMATE

Yes welcoming a Climate for business and investment is a priority of mine. I've supported our Local Commission on record with Business Development targeted at improving our communities.

AFFORDABLE HOUSING

Inflation is out of control and the housing crisis breaks my heart.

I plan to be very intentional on programs, grants and resources catered to addressing affordable housing in my community.
